# What is a TSP?

- TSPs offer services to agricultural producers such as farmers, ranchers, and private forest landowners on behalf of the Natural Resources Conservation Service (NRCS). TSPs help these producers plan, design, and implement conservation practices or **develop conservation activity plans** to improve agricultural operations.
- TSPs include individuals, private businesses, American Indian tribes, nonprofit organizations, and public agencies.
- TSPs expand the number and availability of conservation technical experts capable of offering customized, one-on-one conservation advice to agricultural producers.

# TSP Policy

- **Food, Conservation, and Energy Act of 2008 (aka, the 2008 Farm Bill) authorized TSPs as we know them today**
- **Main TSP policy references:**
  - Farm Bill
  - Code of Federal Regulations (7 CFR 652)
  - General Manual Title 180, Part 411
